Work Experience

Senior Front-End Developer

Feb 2023 - Present

- As a Frontend Developer at Gramosoft, I specialize in crafting dynamic web applications using Angular 16 and TypeScript, delivering exceptional user experiences. Key contributions include
- Successfully developed a tourism project for Tamil Nadu Tourism Development Corporation, enhancing visitor engagement.
- Played a pivotal role in Malaysian insurance projects, customizing solutions to meet client-specific needs.
- Led the frontend development of CMS-based admin panels for applications like Malindo Air and Batik Air, ensuring operational efficiency.
- Currently working on TVS maintenance project, focusing on maintaining and improving its performance and reliability.
- Designed static web pages for Numentica and developed robust travel insurance platforms such as Mahaaya and OneVasco.
- Integrated web performance tracking tools like Google Tag Manager and Analytics, optimizing application insights.
- Demonstrated leadership by training and onboarding new team members, fostering a high-performing team environment.
- Through these projects, I've honed skills in RxJS, Angular Material, REST API integration, and performance optimization, consistently delivering on business objectives.

Skills

Technical Skills

- Angular Material
- Angular NgRx
- NPM package manager
- Typescript
- Javascript,HTML,CSS,SCSS
- REST API's
- Team Management

Tools/Sofware

- Visual Studio
- Google console
- AWS
- Postman

Languages

- English (Intermediate)
- Tamil (Fluent)

Certification/Short Courses

- Angular 7 Advance level (greate learning)
- Microsoft azure hackathon

Educational Background

Bachelor of Technology - Information Technology

MPN MJ Engineering College
Jun 2018 - May 2022

Additional Information

- Served as Team Lead in the current ongoing projects
- Volunteer Treasurer, Local Nonprofit Organization.
